

Organized Hamlet of Day's Beach

Agenda item 8(a)

Potential New Services

Service: **Garbage Pick-up**

Project leads:

Description: Lakeside Environment approached the hamlet board in March 2022 with a proposal for the Hamlet to provide weekly garbage pick-up. Instead of individual cabin owners contracting with Lakeside Environment the OH of DB would sign a contract and the service would be a hamlet expense. Because this contract would increase our annual expenses the board decided that the matter should be discussed at the Annual Meeting.

Terms: The beach would be charged \$30 per cabin per month for each cabin that utilized a Lakeside garbage pick-up (active customer). To participate cabin owners would have to purchase their own Lakeside garbage bin but after the purchase of the bin the costs will be billed to the OH of Day's Beach.

Considerations:

1. If the Hamlet contracts with Lakeside Environment there will be no ability to charge back specific cabins; cabins not utilizing the service will be subsidizing the costs of those using the service.
2. If the Hamlet doesn't enter into the contract cabin owners can continue to make arrangements directly with Lakeside Environmental for their garbage pick-up.
Current rates: Yearly \$360, at a cost of \$180 for the summer season (May to Sept) or \$40 on a month to month basis.
3. We may be too late to arrange for this service in 2022, it might have to wait until 2023.
4. If you want further information, please visit lakesideenvironmental.ca

Next steps:

1. Poll Day's Beach residents to determine if there is support for the new service.
